Company Profile

**JAYACHANDRAN PLASTICS
PRIVATE LIMITED**

Manufacturers of Plastic Granules & Products

JayaChandran (JC) Plastics Private limited is one of the leading plastic recyclers located in Coimbatore, Tamilnadu, India. JC Plastics currently produces reprocess granules of Polypropylene copolymer, ABS and HIPS. JC Plastics is well known for its sound environment friendly recycling and its care for the environment and safety of the employees. This thought has been well reflected in the mission and vision of the company. We are renowned Manufacturers, Exporters and Suppliers of wide range of PP Granules, ABS Granules and HIPS Granules.

Mission & Vision

Our mission is to be a significant player in the manufacture and supply of Plastic Products in the international market by delivering the best possible value to our customers and partnering along with all our stakeholders to continuously improve environmental friendly practices in the society as a whole.

To deliver the best quality and value for money to our customers through constant innovation and finding the most cost efficient way of operations.

To create the best eco friendly practices in the work place by benchmarking ourselves against the world class firms.

No asset is worth more than our employees; hence we want to create the best place to work in terms of health and safety for our employees.

Our Journey

- The Journey of Jayachandran Group of Companies was started in late 1970 's.
- In 1986 we started our first Lead Smelting plant in Mangalore.
- In 2006 our second Lead Smelting & Alloying plant in Mangalore commenced its operations.
- In 2007 we started our third Lead Smelting & Alloying plant in Coimbatore.
- In 2008 we diversified our activities into Plastics and we started our plastics reprocessing unit in Mangalore.
- In 2009 JC Groups further diversified its activity by producing lead acid batteries in Coimbatore.
- In 2010 JC groups started Aluminium Recycling & Alloying plant in Mangalore.
- In 2010 we started our second Plastics recycling unit in Coimbatore.
- In 2011 the company expanded its recycling capacity with production of 300 MT per month. In the same year, the company started granulating its plastic scraps and started trading of other plastic scraps like Nylon, PBT, PET, TFPP, Noryl, PMMA, Polycarbonate etc.

Management Team

Led by **TECHNOLOGY**
powered by **PEOPLE**

The top management team of Jayachandran (JC) Plastics is a perfect blend of experienced personnel and dynamic youths. The people in the management team come from diverse backgrounds with complementary skills.

P. Anbalagan

Director

Experience: 30 years in Metals, Battery & Plastic industry.
Qualification: BSc degree from PSG, India

C. Bharani Kumar

Director

Experience: Worked for 6 years as a software engineer in USA. 3 years experience in Plastic, Metals & Battery industry.
Qualification: BE-ECE degree from KCT, India; MS- Applied Mathematics from MSU, USA;

P. Chandrasekaran

Director

Experience: 30 years in Metals, Battery & Llastic industry

A. Sabarinathan

Director

Experience: Worked in operations in Ford & Nokia, Germany. 5 years in Plastic, Metals & Battery industry.
Qualification: BE- EEE degree from BITS, India MS- Electrical from ULM, Germany

P. Ramalingam

Director

Experience: 28 years in Metals, Battery & Plastic industry
Qualification: BSC degree from PSG, India

C. Pradeep

Executive Director

Experience: 7 years in Plastic, Metals & Battery industry.
Qualification: BSc degree from PSG, India; MBA from GRD, India

P. Arumugam

Director

Experience: 25 years in Metals, Battery & Plastic industry

C. Prasath

Managing Director

Experience: 5 years in Plastic, Metals & Battery industry.
Qualification: BE- ECE degree from PSG, India; MBA from Bradford School of Management, UK

A. Krishna Prakash

Chief Executive Officer

Experience: Worked in operations in FedEx, USA. 5 years experience in Plastic industry.
Qualification: BE - ECE degree from KCT, India

**JAYACHANDRAN PLASTICS

Manufacturers of Plastic Granules & Products

Products

PPCP:

Our natural granules are made from reprocessed battery Plastics. Polypropylene copolymer is a thermoplastic polymer and has wide applications, including furniture's, textiles, laboratory equipment, loudspeakers, automotive components and battery casings. This type of plastic usually has good resistance from fatigue, they are strong and opaque. The granules are mostly of natural grade and are also available in colors like red, green, blue and black.

ABS:

We manufacture superior quality ABS Granules FR Grade from Battery Plastics. The ABS Granules FR range is fabricated by using superior quality raw material. The granules are available in black, grey and white color.

HIPS:

We also produce High Impact Polystyrene Plastic granules from battery Plastics.

Apart from the above mentioned plastics , we also deal with other plastic scraps such as Nylon, PBT, PET, TFPP, Noryl, PMMA, Polycarbonate, Delrin, Celcon, PPCP (Extrusion Grade) etc.

What we sell:

Certifications:

JC Plastics is certified by the concerned state Pollution control Board authorities.

We are also working towards ISO 9001: 2008 and ISO 14001: 2001 Certifications.

SAP has been implemented to keep ourselves in tune with the international business practices.
